REPORT OF THE BOARD OF DIRECTORS
On business results in 2024 and orientation for 2025

1. WORLD AND DOMESTIC ECONOMIC CONTEXT:

In 2024, the world situation continues to evolve in a complex and unpredictable manner with many risky and uncertain factors. Military conflicts continue to escalate, strategic competition between major countries becomes increasingly fierce, many countries strengthen trade protection policies, and global supply chains are locally disrupted, affecting peace, stability, and world economic growth. Along with that, natural disasters and extreme weather have seriously affected people's lives and socio-economic development in many countries. However, the world economy is gradually stabilizing as global trade in goods improves again, inflationary pressures gradually decrease, financial market conditions continue to loosen, and the labor market recovers positively. Vietnam, in 2024, continues to have a clear recovery trend, with growth gradually improving month by month and quarter, inflation lower than the target, major balances are ensured: bank interest rates are stable and tend to decrease gradually during the year, exchange rates are stable but still at a high level... public investment is arranged with a very large total source but disbursement is still low. Natural disasters, especially storm No. 3, caused severe damage, seriously affecting people's lives and economic growth. The number of dissolved and suspended enterprises increased by nearly 20% compared to the previous year, proving that there are still many difficulties. However, GDP growth is still above 7%, exceeding the set target, and is a bright spot in economic growth in the region and the world.

2. BUSINESS ACTIVITIES AND CORPORATE MANAGEMENT:

- Continued difficulties due to gradual decline in revenue from traditional sectors and traditional customers.
- Some debts have not been completely resolved and provisions must still be made.
- Adding new customers and new sectors serving national security and defense will bring great opportunities in the coming years.
- Strengthening management to prevent new debts from arising.

3. BUSINESS RESULTS IN 2024:

In that context, despite efforts, the company still failed to achieve its profit target. Specifically:

- Total revenue: 580,761,310,872 VND, up 10.83% over the previous year and up 29.06% over the plan.

- Pre-tax profit: 1,722,054,762 VND, down 36.45% over the previous year and down 42.60% over the plan. (*Data audited by A&C Auditing Company*)

Main reasons: Although revenue increased, profit decreased due to:

- ✓ Profit margin of the company's traditional products is narrowing.
- ✓ Cost of setting up provisions for bad debts is large

4. ACTIVITIES OF THE BOARD OF DIRECTORS AND SUPERVISORY BOARD:

- In 2024, the Board of Directors fulfilled its responsibilities as a company manager by directing the implementation of the planned tasks approved by the Annual General Meeting of Shareholders. The activities of the Board of Directors are in compliance with the Company's Charter, quarterly meetings are held to discuss and approve major policies and assign tasks to members of the Board of Directors to support the resolution of specific issues on the basis of the policies that have been unanimously approved.

- Fully implement the regulations on inspection, supervision, and information disclosure for public companies, and direct the implementation of the contents in accordance with the Resolution of the General Meeting of Shareholders.

- The members of the Board of Directors all have a high sense of responsibility in building the company in general and in performing assigned individual tasks, in which the Board of Directors directly coordinated with the Executive Board to resolve some specific tasks such as debt collection issues, etc.

- In 2024, the Board of Supervisors has supervised and coordinated with the Board of Directors and the Executive Board in all aspects of the company's business operations. Organized the appraisal of semi-annual and annual financial statements; Checked the legality and reasonableness of each specific issue in the company's operations. Coordinated with the Board of Directors and the Executive Board to successfully organize the annual General Meeting of Shareholders.

5. ASSESSMENT OF SITUATION, PROSPECTS AND DIRECTIONS IN 2025:

5.1. Assess the situation:

- 2025 is forecast to be a year of global economic instability, low growth, the Russia-Ukraine war continues. The conflict in the Middle East is at risk of spreading, geopolitical conflicts are increasing.

- The risk of global inflation remains constant, interest rates in major economies remain high. Commodity prices are high, energy and food security are threatened, global trade is locally disrupted.

- Vietnam's economy is expected to continue to grow at a high rate in 2024, continuing to maintain stability in major economic balances, low interest rates, stable exchange rates, and extending tax reduction policies.

- Many policies to support non-state enterprises, abandoning the mindset of banning if you can't manage it, boldly gradually reducing state-managed sectors.

5.2. Specific directions and solutions:

- In addition to attracting traditional customers and main business areas, increase the expansion of new customers, research new business areas, including promoting customers in the non-state sector, foreign-invested sectors, etc.

- Expand cooperation and association to develop a system of partners and suppliers in both the information technology sector and other production and business sectors such as providing equipment, goods and solutions for national security and defense.

- Further improve the quality of corporate governance. Strengthen financial management, exchange rates and debt to minimize risks, preserve capital, and stabilize cash flow in business.

- Thoroughly save expenses.

- Strive to completely resolve outstanding debts in 2025 and not to generate new bad debts, thereby striving to maintain the payment of cash dividends in the coming years.

5.3. Basic business indicators:

Unit: Million VND

No.	Target	Plan 2025
1	Total revenue	500.000
2	Profit before tax	3.000
3	Average income of employees/month	14
4	Business capital	79.600
5	Average number of employees	75 people
6	Remuneration of the Board of Directors and Supervisory Board	250

**T.M BOARD OF DIRECTORS
CHAIRMAN**

LU HONG CHIEU

Hanoi, May 27, 2025

REPORT ON THE SUPERVISORY BOARD'S ACTIVITIES
Submitted to the 2025 Annual General Meeting of Shareholders

- Pursuant to the Enterprise Law No. 59/2020/QH14 passed by the 14th National Assembly on June 17, 2020, effective from January 1, 2021;
- Pursuant to the powers and responsibilities of the Board of Supervisors as prescribed in the Charter of organization and operation of ONE Technologies Corporation;
- Pursuant to the 2024 Financial Report of ONE Technologies Corporation which has been audited and disclosed in accordance with current regulations;

The Board of Supervisors reports to the General Meeting of Shareholders the results of inspection and supervision of all activities in 2024 of ONE Technologies Corporation and the direction of activities in 2025 as follows:

1. Activities of the Supervisory Board

Information about the Supervisory Board members in 2024

No.	Supervisory Board Member	Position	Number of meetings attended	Meeting attendance rate	Reasons for not attending
1	Vu Binh Minh	Head of Supervisory Board	2/2	100%	
2	Doan Thu Hang	Member	2/2	100%	
3	Do Lien Huong	Member	1/2	50%	Business trip abroad

Supervisory activities of the Board of Supervisors

- Supervise the implementation and results of the contents approved by the 2024 Annual General Meeting of Shareholders;
- Review the systematicity, consistency and appropriateness of accounting work and financial reporting;
- Assess the honesty and reasonableness of the review reports/audit reports of the independent auditor on the Company's financial statements;
- Monitor and supervise the activities of the Board of Directors, the Board of Management of the Company and perform other tasks as prescribed by the Law on Enterprises, the Law on Securities, the Company's Charter to protect the legitimate rights and interests of the Company and shareholders.

2. Implementation status of the Resolution of the 2024 General Meeting of Shareholders

In 2024, the Board of Directors and the Board of Management of ONE Technologies Corporation implemented the contents approved by the 2024 General Meeting of Shareholders, specifically:

- The Board of Directors and the Board of Management of the Company implemented the contents of the Resolution of the 2024 Annual General Meeting of Shareholders; implemented the 2024 business plan.

- Implement the allocation of funds according to the 2023 profit distribution plan in accordance with the Resolution of the 2024 Annual General Meeting of Shareholders.
- Sign a contract with an independent auditing organization, A&C Auditing and Consulting Co., Ltd. - Hanoi Branch, to review the semi-annual financial statements and audit the 2024 Financial Statements of the Company.

3. Implementation status of business plan in 2024

- According to the Audit Report of the Independent Auditing Company, the Company's 2024 Financial Statements have been confirmed to fairly and fairly reflect the financial situation as of December 31, 2024, the results of business operations as well as the cash flow situation in the fiscal year of the Company. The Financial Statements are prepared in accordance with Vietnamese Accounting Standards, the Enterprise Accounting Regime and legal regulations related to the preparation and presentation of Financial Statements.
- The opening of accounting books, recording, classifying and presenting arising transactions are in accordance with Vietnamese Accounting Standards and the current Enterprise Accounting Regime.
- The Board of Supervisors has reviewed the Financial Statements, thereby agreeing on the results of the 2024 financial audit and agreeing with the assessments of the Company's financial activities stated in the Audit Report.

The business results in 2024 are as follows:

Unit: Million VND

No.	Target	Plan 2024	Implementation 2024	Implementation 2023	Performance % TH/KH	Performance % 2024/2023
1	Net Revenue	450.000	580.761	524.026	129,1%	110,8%
2	Profit Before Tax	3.500	1.722	2.710	49,2%	63,5%
3	Profit After Tax		1.278	1.802		70,9%

The Company's financial situation as of December 31, 2024

I. Total assets: **338.491.148.281 VND**
Short-term assets: 326.764.419.683 VND
Long-term assets: 11.726.728.598 VND

II. Total capital: **338.491.148.281 VND**
Liabilities: 236.342.532.524 VND
In which:
Short-term debt: 233.155.823.661
Long-term debt: 3.186.708.863
Owner's equity: 102.148.615.757 VND
In which: Charter capital: 79.603.100.000

Short-term assets/Short-term debt ratio: 1,40 Times

Based on the above figures, the Company has exceeded the planned revenue for 2024 by nearly 30% and increased slightly by about 10% compared to the revenue for 2023. The Company has

preserved and developed its equity, always ensuring the ability to pay due debts. However, the profit realized in 2024 only reached 49% of the plan and was equal to 63.5% of the previous year's profit. According to the Board of Supervisors' assessment, this result is mainly due to the following reasons:

- In 2024, the Company will continue to maintain sales activities with regular customers such as some units of the Military Industry - Telecommunications Group (Viettel Group) ... However, due to the impact of the economy in a difficult period, public investment activities have decreased and are slow to implement, so the revenue from the Company's telecommunications equipment business has decreased significantly and is only about 60% of the revenue in 2023. This year, the Company has expanded its business line to include main engine equipment for ships, supplying customers who are shipbuilding enterprises under the Ministry of National Defense. Revenue from this activity reached more than 280 billion VND, accounting for nearly 50% of the Company's total revenue in 2024.
- In 2024, the Company will continue to make additional provisions for doubtful debts of about VND 15.5 billion, mainly from receivables overdue for more than 1 year of Samjin Vietnam Co., Ltd. with a provision of about VND 11.23 billion (equivalent to 65% of receivables from this customer); receivables overdue for more than 3 years of the Department of Health of Thanh Hoa province with a provision of about VND 3.3 billion (2023: VND 2.2 billion); at the same time, the Company will also reverse provisions for some customers with an amount of about VND 7.5 billion due to debt recovery (mainly receivables from the Department of Tourism of Kien Giang province with a value of about VND 6.7 billion).
- Financial expenses in 2024 increased sharply by about VND 2.69 billion compared to the previous year, mainly due to exchange rate differences arising from payment transactions for imported goods increasing by about VND 2.54 billion when the exchange rate in 2024 fluctuated greatly.

The Board of Supervisors recommends that the Board of Directors and the Board of Management continue to implement many measures to urge and collect overdue receivables as well as promote the acceptance and settlement of unfinished projects with the investor/main contractor.

4. Supervise the activities of the Board of Directors and the Board of Management of the Company

4.1 For the Board of Directors

- The Board of Directors has regularly held meetings to promptly make appropriate decisions in the supervision and implementation of the business plan. The issues discussed and voted at the Board of Directors' meetings are based on the Resolution of the General Meeting of Shareholders and are under the authority of the Board of Directors.
- The Board of Directors, within its authority, always creates favorable conditions and promptly directs the Board of Directors to operate the Company in accordance with the direction of the Resolution of the General Meeting of Shareholders and the Company's Charter to ensure the development of the Company and the interests of shareholders.
- The Board of Directors has fully performed its functions and duties in the management and operation of the Company. The Supervisory Board has not seen anything unusual in the activities of the Board of Directors.

4.2 Operational activities of the Board of Directors

- The Board of Directors is directly responsible for managing all activities of the Company and performing tasks in accordance with the Resolution of the General Meeting of Shareholders and the Resolution of the Board of Directors fully and promptly in accordance with the functions, tasks and powers stipulated in the Company Charter.
- The Board of Directors periodically conducts implementation assessments according to the orientation of the Board of Directors, periodically evaluates business performance by month/quarter. During the process of operating activities, the Board of Directors has proposed solutions and recommendations to the Board of Directors on issues under the decision-making authority of the Company's Board of Directors to improve business efficiency and help control risks in the best way.
- The Board of Directors has directed functional departments to strictly implement the preparation of quarterly and annual financial reports on time, in accordance with Vietnamese Accounting Standards, Enterprise Accounting Regime and legal regulations related to the preparation and presentation of financial reports.

5. Recommendations

- In addition to maintaining relationships with traditional customers to seize opportunities to supply goods in the future when customers have a need to shop, the Company needs to diversify its customer base, providing IT and telecommunications infrastructure solutions for industrial parks, factories, and foreign-invested companies; further improving business performance, creating growth and development for the Company.
- Expanding the list of goods/services provided to meet different customer needs.
- Continuing to promote acceptance, payment and settlement with investors/main contractors related to contracts for the supply and installation of equipment systems for long-standing construction works and projects to recover capital soon.
- Strengthening credit risk management to minimize financial losses that may arise due to the situation of some customers having long-standing problems and being slow to pay.
- Strengthen the control of all types of costs to use economically, reasonably, and improve business efficiency. - Organize updates on changes in tax and accounting policies to ensure compliance with the Enterprise Accounting Regime, tax policies, legal regulations, etc. in the Company's operations.

6. Board of Supervisors' Operation Plan for 2025

The Board of Supervisors performs its duties on behalf of the shareholders to inspect and supervise the business, management and operation of the Board of Directors on the basis of supervising the activities of the Board of Directors and the Board of Directors of the Company. In 2025, the Board of Supervisors will carry out the following tasks according to the plan:

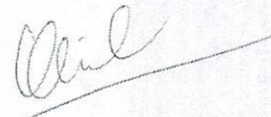

- Report on activities to the Annual General Meeting of Shareholders;
- Monitor the activities of the Board of Directors and the Board of Directors of the Company in implementing the Resolutions of the Annual General Meeting of Shareholders, monitor the development and implementation of plans related to business activities in 2025;
- Monitor the compliance with the provisions of the Law, the Charter and the Company's Regulations in production and business activities.

- Review and inspect the Company's 6-month and annual Financial Reports. Review the remaining issues discovered from the review and audit of the Financial Reports; inspect the correction of errors.
- Perform other tasks as prescribed.

The above is the Report of the Board of Supervisors, respectfully submitted to the Annual General Meeting of Shareholders for consideration and approval.

TM. Board of Supervisors

Head of the Board
