## **IV. ACCOUNTING POLICIES APPLIED**

### **1. Basis for preparing financial statements**

Financial statements are prepared on the accrual basis of accounting (except for information relating to cash flows).

### **2. Foreign currency transactions**

Transactions in foreign currencies are translated at the exchange rate on the date of the transaction. Balances of monetary items denominated in foreign currencies at the end of the financial year converted at the exchange rate on this date .

Exchange rate differences arising during the year from foreign currency transactions are recorded in financial income or financial expenses. Exchange rate differences arising from revaluation of foreign currency items at the end of the fiscal year after offsetting the increase and decrease are recorded in financial income or financial expenses .

The exchange rate used to convert transactions in foreign currency is the actual exchange rate at the time of the transaction. The actual exchange rate for transactions in foreign currency is determined as follows:

- For foreign currency purchase and sale contracts (spot foreign currency purchase and sale contracts, forward contracts, futures contracts, options contracts, swap contracts): exchange rate signed in the foreign currency purchase and sale contract between the Company and the bank.
- For capital contributions or capital receipts: foreign currency buying rate of the bank where the Company opens an account to receive capital from investors on the date of capital contribution.
- For receivables: foreign currency buying rate of the commercial bank where the Company designates the customer to make payment at the time the transaction occurs.
- For payables: foreign currency selling rate of the commercial bank where the Company plans to transact at the time the transaction occurs.
- For asset purchases or expenses paid immediately in foreign currency (not through payable accounts): foreign currency buying rate of the commercial bank where the Company makes payment.

The exchange rate used to re-evaluate the balance of foreign currency monetary items at the end of the fiscal year is determined according to the following principles:

- For foreign currency deposits at banks: foreign currency buying rate of the bank where the Company opens a foreign currency account.
- For foreign currency monetary items classified as other assets: foreign currency buying rate of Vietnam Technological and Commercial Joint Stock Bank (the Bank where the Company regularly transacts).

- For foreign currency items classified as liabilities: foreign currency selling rate of Vietnam Technological and Commercial Joint Stock Bank (the Bank where the Company regularly transacts).

### **3. Cash and cash equivalents**

Cash includes cash and demand deposits. Cash equivalents are short -term investments with a maturity of no more than 3 months from the date of investment, which are easily convertible to a known amount of cash and are subject to an insignificant risk of change in value at the reporting date.

### **4. Financial investment**

#### *Held to maturity investments*

Investments are classified as held-to-maturity when the Company has the intention and ability to hold them until maturity. The Company's held-to-maturity investments consist only of term bank deposits. Interest income from term bank deposits is recognized in the Income Statement on an accrual basis.

### **5. Accounts Receivable**

Accounts receivable are stated at carrying amount less allowance for doubtful debts.

Classification of receivables as trade receivables and other receivables are made on the principle of after :

- Trade receivables reflect commercial receivables arising from purchase-sale transactions between the Company and independent buyers. with Office Company .
- Other receivables reflect non-commercial receivables not related to purchase and sale transactions.

Provision for doubtful debts is made for each doubtful debt after offsetting against payables (if any). The provision level is based on the age of overdue debts or the expected level of loss that may occur, specifically as follows:

- For overdue receivables:
  - 30% of the value for receivables overdue from 6 months to less than 1 year .
  - 50% of the value for overdue receivables from 1 year to less than 2 years .
  - 70% of the value for overdue receivables from 2 years to less than 3 years .
  - 100% of the value for receivables overdue for 3 years or more.
- For receivables that are not overdue but are unlikely to be recovered: establish provisions based on expected loss level.

Increases and decreases in the balance of the provision for doubtful debts that must be set up at the end of the fiscal year are recorded in business administration expenses.

### **6. Inventory**

Inventories are stated at the lower of cost and net realizable value.

The cost of inventories is determined as follows:

- Goods: include costs of purchase and other directly relevant costs incurred in bringing the inventories to their present location and condition .
- Work in progress is the cost incurred from ongoing contracts for which revenue has not yet been recorded.

The cost of goods sold is calculated using the weighted average method and is accounted for using the perpetual inventory method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

for inventory devaluation is made for each inventory item whose original cost is greater than its net realizable value . Increases and decreases in the balance of inventory price reduction provisions required to be set up at the end of the fiscal year are recorded in cost of goods sold.

## 7. Prepaid expenses

Prepaid expenses include actual costs that have been incurred but are related to the results of production and business activities of many fiscal years. The Company 's prepaid expenses include the following:

### *Tools, instruments*

Tools and equipment already put into use are allocated to expenses by the straight - line method with an allocation period of no more than 3 years.

### *Other prepaid expenses*

Other prepaid expenses are allocated to expenses during the year using the straight -line method within 12 months or according to the effective period of that type of expense.

## 8. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The cost of tangible fixed assets includes all costs incurred by the Company to acquire the fixed assets up to the time the assets are ready for use. Expenses incurred after initial recognition are only recorded as an increase in the cost of fixed assets if these expenses will certainly increase future economic benefits from the use of the assets. Expenses incurred that do not satisfy the above conditions are recorded as production and business expenses in the year .

tangible fixed assets are sold or disposed of, their cost and accumulated depreciation are removed from the accounts and any gain or loss resulting from their disposal is recognised in income or expenses for the year.

Tangible fixed assets are depreciated using the straight - line method over their estimated useful lives . The depreciation years for various types of tangible fixed assets are as follows:

<u>Type of fixed asset</u>	<u>No. 5</u>
